SICA 2.0 – Blackboard UVM

JALISOFT Modernization of 2 Mexican university websites that
UNITEC are used for their management and organization.
UVM en línea With the designs already prepared, in most of the project, I just had to create tables, report views, buttons, functions, and apply that design + responsiveness to everything.

August-Sep 2022

JobHub

This is the final Project of Soy Henry's graduation that I and five of my classmates managed to do as a team. But more than that, JobHub is a place where people who need a service find it, and workers who offer their trade find their clients.
